EXPERIENCE

Director of Strategic Initiatives July 2019 – Present

National Information Standards Organization

<http://niso.org>

Project-focused work designed to extend the outreach and standards work both nationally and internationally and to push into new areas of the information ecosystem. Responsible for the NISO Annual conference, and ongoing emerging technology projects. <<https://www.niso.org/press-releases/2019/06/niso-names-jason-griffey-new-director-strategic-initiatives>>

Affiliate Researcher July 2018 – September 2019

MetaLAB at Harvard

Working to expand the Library Test Kitchen project at Harvard <<https://metalabharvard.github.io/projects/ltk/>> which seeks to explore libraries through the process of design and making. <<https://metalabharvard.github.io/people/jason>>.

Fellow/Affiliate August 2015 – July 2018

Berkman Klein Center for Internet & Society at Harvard University

Invited to expand my professional research as a Fellow through residency and community at the Berkman Klein Center for Internet & Society at Harvard University. Worked to formalize forward-looking concepts for the LibraryBox project, as well as research and write on topics such as decentralization of the Internet, uses of Blockchain technology, cooperative labor, anonymity and security in digital spaces, and more. <<https://cyber.harvard.edu/people/jgriffey>>

Founder & Director January 2015 – Present

Measure the Future – <http://measurethefuture.net>

Using open hardware and inexpensive sensors to better understand and evaluate library buildings and spaces. We accomplish this goal by using simple and inexpensive sensors that can collect data about building usage that is now invisible. Making these invisible occurrences explicit allows librarians to make strategic decisions that create more efficient and effective experiences for their patrons. This project received primary funding from John S. and James L. Knight Foundation's Knight News Challenge <<http://knightfoundation.org/grants/201550329/>>.

Founder & Principal July 2014 – July 2019

Evenly Distributed LLC – <http://evenlydistributed.net>

Dedicated to increasing the technological efficiency of libraries everywhere, Evenly Distributed focuses on the elimination of pain points in the technological implementation process. With two decades of experience in technology and over a decade of library and higher education experience, Evenly Distributed can help libraries with everything from technological space planning (especially makerspace and future tech decisions) to personal electronic and gadget implementation plans.

Founder & Director

January 2012 – Present

The LibraryBox Project – <http://librarybox.us>

An open source project focused on the anonymous but open sharing of digital files in areas without reliable or extant Internet access, especially areas that are off the grid. Funded through a combination of a successful Kickstarter campaign and the recipient of a Knight Foundation Prototype grant in 2014, the LibraryBox Project is dedicated to helping libraries and people everywhere share information freely.
